

**TWO HORRIBLY
CHOPPED WITH
AXES IN FIGHT**

Bloody Affair Occurs in the
Swishelms Which May Lead
To Death of One of the
Wounded.

**MEXICAN WOOD MEN
THE PERPETRATORS.**

Supposed to Be Act of Re-
venge for Killing of Mex-
ican Three Months Ago.

(Special to Review.)
DOUGLAS, Feb. 1.—While camped in Hog Canyon, in the Swishelms mountains Monday evening two men named Kuykendall and Plumb were set upon by two Mexican wood choppers which ensued the two Americans were left on the ground to die and the assailants made their escape.
Plumb, one of the wounded men, was brought into Douglas tonight and placed in the hospital. He was not expected to live at a late hour last night. Kuykendall lies at his home in the Swishelms mountains with his life hanging in the balance as a result of the vicious slashes in the head and body inflicted by the Mexicans, who used their axes for weapons.
News reached here this morning that two Americans had been killed in the Swishelms mountains by Mexican wood choppers. Immediately a posse was formed and accompanied by District Attorney Williams and Justice Ben Rice, the party left for the scene of the trouble in an automobile. By a late hour tonight the posse had not returned, and it is believed that the posse, assisted by ranchers and cowboys in that vicinity, are scouring the country for the assailants.
Kuykendall and Plumb, together with Kuykendall's father, were camping in the canyon, where they were engaged in cutting wood. After the day's work the men were sitting around their campfire when two Mexican wood choppers arrived on the scene. The Mexicans were strangers to the Americans. When they entered the camp they stated that they desired to sell their axes and, according to the story which reached Douglas tonight, a quarrel ensued and the Mexicans used their axes with almost fatal results. Both Kuykendall and Plumb were horribly mutilated about the head and face and were left on the ground for dead. In the meantime the father of Kuykendall made his escape and hid while the bloody fight was in progress. After the Mexicans left he returned to the camp, found the two men insensible, and started for the nearest ranch for help. The father is an old man and very feeble.
He had not gone far from the scene when he fell into an old prospect hole and could not extricate himself until daylight, when a passer by heard his cries for help.
Word was sent to Jim Kuykendall at the ranch not far away and he hurried to the scene early Tuesday morning and removed the bodies of the two men to the Kuykendall ranch. By this time the wounded men had regained consciousness. Leaving them in charge of neighbors, Jim Kuykendall rode into Douglas and notified the officers.
Kuykendall, one of the men wounded, killed a Mexican in the same vicinity about three months ago in a quarrel over some goats and the theory of the officers is that the killing by the two Mexicans was an act of revenge.
No description of the two Mexicans has been received in Douglas, other than that one was named Ignacio and another Jesus.
The scene of the battle with axes was in the Swishelms mountains, about twenty-five miles from Douglas, not far from the Heffernan mining company.

WOMAN MAY GO FREE.

CINCINNATI, Feb. 1.—Mrs. Jeanette Stewart-Ford may be freed tomorrow of the charge of leaving Blackmail on Charles Warner, the defendant in the case of the Big Four railroad. An unexpected turn in the woman's trial came today when the attorneys demanded a dismissal of the case on the ground that the prosecuting attorney refused to submit to the court the transcript of evidence given before the grand jury. Decision will be rendered tomorrow.

SHERMAN "BUTTS IN"
SENATORIAL SCRAP.
WASHINGTON, Feb. 1.—Vice President Sherman today injected his influence into the senatorial contest of West Virginia, where Scott's reelection on being opposed by Representative Hubbard.
The proceeding is so unusual that it will probably attract much attention in political circles. The vice-president issued a statement in which he says it would be a misfortune not to continue in the senate such an earnest republican and so influential a legislator as Scott.

**FISK-ROBBINS
ARE BANKRUPT
ON EXCHANGE**

Big New York Bond Firm Fails
For a Million Dollars Yesterday and Receiver is Appointed By Creditors.

NEW YORK, Feb. 1.—Fisk & Robbins, bond dealers and members of the New York Stock Exchange, failed for a million dollars today. An involuntary petition in bankruptcy was filed by the creditors in the United States district court. Shrinkage in value of Buffalo and Susquehanna railroad stocks and bonds held by the firm caused the failure, one of the largest since the panic of 1907, not so much as the liabilities are concerned, but in view of the importance of the firm which has branches in Chicago, Boston and Worcester.
The business of the firm was primarily banking and floating bonds. The petition in bankruptcy was filed with full consent of the firm, its members having concluded that this was the only way to avert further losses for itself and for the creditors.
A statement issued by the receiver, David S. Brown, stated that the firm had been in business for many years, and that its failure was the result of a combination of factors, including a sharp decline in the value of the bonds held by the firm, and a heavy loss in the sale of the bonds. The firm's assets are estimated at \$1,000,000, and its liabilities at \$1,000,000. The receiver is expected to complete the liquidation of the firm within a few weeks.

BATTLE FOR CUE TITLE
CHICAGO, Feb. 1.—In Orchestra Hall tonight Calvin Demarest and Harry P. Cline are to begin a tournament for the world's championship at 184 balling billiards. Demarest is the present holder of the title and gambler, which he won in a contest with George Sutton last fall. The tournament is to continue three nights. Both men have been practicing diligently for the match for several weeks, and both appear to be in excellent form.

NEW HEAD OF CLARK COLLEGE.
WORCESTER, Mass., Feb. 1.—Clark College today installed Dr. Edmund C. Stanford as president of that institution. The ceremonies, which took place in the gymnasium this forenoon, were witnessed by a large number of the most prominent educators of the country. This afternoon there were a luncheon and reception in honor of the visitors.
The new president is fifty years old and a native of Oakland, Cal. In his early career he was a teacher in Honolulu and later an instructor at Johns Hopkins University. For the last twenty years he has been a member of the faculty of Clark College, occupying during the most of the time the chair of experimental and comparative psychology.

MARKET IS NEGLECTED.
NEW YORK, Feb. 1.—The general heavy tone of today's stock market was due to neglect as much as to any active selling pressure. Today's report of the growth of the European visible supply of copper and the falling off in December exports of the metal had a bearing on opinion concerning the trade outlook. Bonds easy, U. S. bonds unchanged.

No Mercy Shown to the Vandal—Relief Funds Pour in From Cities in the United States.

PARIS, Feb. 1.—The height of water at midnight at Pont Royal was twenty-seven feet, three inches, a fall of nearly four feet from the highest point, and the flood continues to drop at the rate of one-quarter of an inch per hour.
Soldiers are still guarding many of the public buildings and strong detachments have been sent to outlying districts to stop the wholesale pillaging still going on. A boat patrol surprised a band of "Apaches" robbing a villa tonight at Boulogne-Sur-Seine. After an exciting chase in which a fistfight was exchanged an infantry sergeant sank the robbers' boat with a blow of an oar. Two "Apaches" were killed and others captured.
The city council, following the lead of the national government, is arranging with the co-operation of saving institutions, to furnish money for rebuilding stores and houses and for furnishing supplies. The government decided upon a general scheme of employment whereby those who desire work may find it in repairing the roads and public buildings. The municipal council has adopted the suggestion of presenting medals to those who have been conspicuous in relief work. Students in the Latin Quarter have formed a relief society and have agreed to care for their American comrades who suffered in connection with the flood.

In addition to \$50,000 from Massachusetts, new subscriptions to the relief fund from the United States are as follows: American Red Cross, \$5,000; W. K. Vanderbilt, \$20,000; Mrs. A. D. Huntington, \$5,000.

RULES TO KEEP OUT CHINESE.

WASHINGTON, D. C., Feb. 1.—Several stringent new rules designed to keep undesirable Chinese immigrants out of the United States go into operation today by direction of the Department of Labor and Commerce. Under the new regulations Chinese bound for foreign ports by the way of New England are to be inspected at the original port of entry, Vancouver. Under the system of inspection at Vancouver those Chinese who cannot give a satisfactory account of themselves will not be allowed to cross the international border. Those who really intend to go to foreign countries through the United States will be put under heavy bond. It is believed that the new order will reduce the traffic in Chinese through New England to a considerable extent.

HARDWOOD LUMBERMEN MEET

CINCINNATI, O., Feb. 1.—The National Hardwood Lumber association, the strongest and most influential organization of its kind in the country, began its annual convention in Cincinnati today, with headquarters at the Sinton Hotel. Several thousand members representing many states were present when the convention was called to order. The convention will discuss plans for uniting the manufacturers and consumers of hardwoods throughout the country into one organization.

**CONFIRMATION OF
DOAN IS DELAYED**

TRIFLING CHARGES AGAINST
JUDGE NOT EXPECTED TO
WORK AGAINST HIM.

(Special to Review.)
WASHINGTON, Feb. 1.—The confirmation of the appointment of Judge Fletcher M. Doan to be Associate Justice of the Supreme Court of the United States has been delayed by the judiciary committee of the senate on account of charges, which have been filed. Your correspondent learns that the nature of the charges are trifling, but the majority of the judiciary committee were of the opinion that they should be investigated before recommending his confirmation. The appointment of Judge Doan and Judge Kent, of Arizona, were sent to the senate at the same time. Kent was confirmed on January 24.

**WILL GIVE NEGROES
NEW SCHOOL SITE**

(Special to Review.)
DOUGLAS, Ariz., Feb. 1.—The long drawn out controversy regarding the segregation of the negro school children and the white children came to an end here yesterday by a satisfactory compromise being arranged. As a result the colored children will be segregated, but not according to the plans of the trustees as originally formulated.
When the segregation policy was first decided upon by the board of trustees a school house for the negro children was erected in Piltville, a suburb lying across the railroad tracks from Douglas. The negro parents objected to the location of the school on the ground that it endangered the lives of their children going and coming from school. At one time it was thought the matter would get into the courts, but this was avoided and it seems now that a satisfactory settlement of the question to all parties concerned has been brought about. The board of trustees has purchased a lot on Twentieth street and a new school house for negro children will be erected there.

SEARCH FOR CORPSES

BEGINS AT CHERRY.
CHERRY, Ill., Feb. 1.—Work was resumed in the St. Paul mine by scores of men, following the removal of the horrid scene that has kept the entire community in a state of shock for several days. Efforts will be made to clear the mine of noxious vapors and to wall in any smoldering fire, and to recover the 160 bodies that have been entombed since the fire broke out November 13. One in charge will hazard a guess as to when the corpses can be removed, as much work is to be done first.
"But when they do bring up the bodies," said a Cherry miner, "they will need the militia to prevent a riot. Those women will be so frenzied that they might destroy the town."

**SOMEBODY IN
MINE EXPOSED
FLAME TO GAS**

Violation of Rules Regarding
Safety Lamps Believed to
Explain Horrible Accident
At Primero Yesterday.

PRIMERO, Col., Feb. 1.—Yesterday's disaster in the main mine of the Colorado Fuel and Iron company, which claimed the lives of at least seventy-nine men, was caused by the explosion of fire damp, according to a survivor of the catastrophe in the same mine January 23, 1907, when twenty-four lives were lost. The same authority holds that the explosion was caused by the ignition of gas from a flame which originated in the mine through the carelessness of some miner in direct violation of mine rules, either through the extinguishing of the cap for a fuse, or the lighting of a match surreptitiously carried into the workings.
Officials refuse to give out any statement regarding the cause, claiming it cannot be determined until the works have been cleared. However, they admit that some violation of the mine rules will be found to be responsible. The Primero mine was equipped with the most modern appliances, and all miners are searched for matches before entering the workings. At 9 p. m. the situation in the workings continued unchanged. Relief work is being pushed by frequent changes of shifts, one rescuing party having reached Entry No. 12, seven-eighths of a mile from the mouth. A check of the bodies recovered to night reveals forty-seven who still in the workings. Tonight a large force of men was put to work digging graves in the cemetery of Trinidad, and tomorrow the bodies recovered will be taken there for burial. Nine Japanese miners recovered with the Catholic cemetery.

Three large drays have been transported into temporary hearse for use tomorrow to convey bodies from the train to the cemetery. Seventy coffins were brought here today. This supply will be further increased tomorrow.
SLOAN IS CONFIDENT.
PHOENIX, Feb. 1.—Governor R. E. Sloan returned home today from Washington where he attended a conference of governors. He is confident of early and favorable action on a statehood enabling act. He believes it possible that the differences between the house and senate bills can be easily harmonized. He also believes that congress will appropriate money for the reclamation of twenty thousand acres of reservation lands near Parker, Arizona, for the benefit of Indians primarily, through the construction of a pumping plant on the Colorado river.

**FORESTRY AND POSTAL
SAVINGS BANK BILL**

WASHINGTON, Feb. 1.—Unavailing criticism of the bill of forestry, led by Representatives Mondell of Wyoming and Taylor of Colorado was a feature of the proceedings in the house today.
The entire time of the senate was devoted to discussion of the postal savings bank bill. Early in the day W. E. Parcell was sworn in as successor to Senator Thompson of North Dakota, who was appointed last Saturday to succeed the late Senator Johnson. Thompson resigned on account of illness.

**PROBE IS GOING
DEEP INTO THE
COST OF LIVING**

Big House Committee Will
Spae Nothing and Senate
Committee Will Get After
Beef Trust.

WASHINGTON, Feb. 1.—The cost of living in the United States is to be thoroughly inquired into by the house of representatives.
Representative Payne of New York, chairman of that committee, today introduced a resolution providing for an investigation along the broadest lines. The resolution authorizes the committee to make a thorough investigation of the costs of living in the United States; to ascertain cost of production, wholesale and retail prices in foreign countries; to recommend such legislation as will contribute to restore prices to a normal level.
A thorough investigation of the so-called beef trust is provided in a resolution introduced today by Mr. Coudry, Republican. The resolution authorizes the committee to make a thorough investigation of the present unreasonable and unnecessary advancing prices made by the meat packers, and the reported hoarding of live stock in western yards; of refusing of large orders and holding of supplies in foreign countries; to create an impression of shortage. The committee will consist of six senators and six members of the house, and must report to the present congress.

CONSUMPTIVES MUST REGISTER.
AUSTIN, Texas, Feb. 1.—Every case of tuberculosis in Texas must be registered with the health authorities, according to the provisions of the new state sanitary code which goes into effect today. The reports on tuberculosis are to be privately kept and are to be considered in the light of a confidential communication, not for the purpose of isolation, but with the object of education in sanitary precautions and to supply literature of the State Board of Health. A number of new regulations in regard to the quarantine of contagious diseases, and the sanitary requirements of hotels and sleeping cars are also contained in the new code, which has the absolute force of law.

NEW TRADE TREATY IN EFFECT

OTTAWA, Ont., Feb. 1.—Following several years of agitation and many long delays in the Dominion parliament, the trade treaty agreed upon last year by the Dominion of Canada and France was put into operation today. The treaty provides for commercial reciprocity between the two nations in the broadest sense. Under its provisions practically all of the manufactured and natural products of the Dominion are admitted to France and hereinafter under the minimum tariff rates and the products of France are to enjoy the same privileges when exported to Canada.
PINCHOT'S SUCCESSOR IN OFFICE
WASHINGTON, D. C., Feb. 1.—Henry S. Graves today took office as United States forester, succeeding Clifford Pinchot, who was recently removed by President Taft. The new chief forester served as assistant to Mr. Pinchot for several years. He is regarded as one of the foremost American experts in forestry. He took a forestry course in Germany, and since 1900 has been one of the directors of the Yale Forest school.

NEW HEAD OF BRAZOS LINE

HOUSTON, Texas, Feb. 1.—J. W. Robb, until recently vice president, and general superintendent of the Chicago, Rock Island and Gulf railroad, today succeeded Col. R. H. Baker as president of the Trinity and Brazos Valley railroad. Mr. Robb is a veteran railroad man of thirty years' experience. He began his career as a clerk in the Santa Fe office and was a division superintendent of that road when he became vice president of the Rock Island.

**35 ARE KILLED
IN KENTUCKY
MINE HORROR**

About Fifty More Are Entombed in the Bowder Shaft While Rescue Parties Work to Save Them.

**UNCOVERED LIGHT
CAUSES DISASTER**

Women and Children Crowd
About Mouth of Black Pit
and Watch Rescuers.

DRAKESBORO, Ky., Feb. 1.—Nineteen corpses have been removed from the Bowder mine, ten bodies in sight of the workers, and six others now to be dead, was the count at midnight in the death roll resulting from explosion of gases in the mine today. Nearly a score of men are missing by the explosion, and many of these probably will die.

DRAKESBORO, Ky., Feb. 1.—Sixteen bodies have been recovered, eight have been rescued alive and from twenty-five to thirty more are supposed to be still entombed in the Bowder mine, in which an explosion occurred today. It is believed the dead will number thirty. Rescuers are working desperately to save the miners who may be alive and to recover the bodies of those killed.
Of the ten men taken out alive five are seriously injured. No gas is in the mine and both day and night remain intact.

Because of the accumulation of gases in the entry where the explosion occurred, 170 feet beneath the mine shaft, it was impossible to get any more bodies out. It is believed the explosion was caused by a track repairer going into an abandoned room with an uncovered lamp. The room was shattered almost to atoms, and the body of the repairer is nowhere to be found. The mine is not on fire and the fans are working. This saves rise to the hope that all bodies may be recovered by daylight. The Bowder mine, with three others in this vicinity, has recently purchased by a stock syndicate of Tennessee and West Virginia capitalists.

At the pit mouth, wives of the dead and missing miners crowd about waiting reports from rescuers. Jesse Jonathan was rescued alive, but is probably fatally burned. It is believed the explosion was caused by a track repairer going into an abandoned room with an uncovered lamp. The room was shattered almost to atoms, and the body of the repairer is nowhere to be found. The mine is not on fire and the fans are working. This saves rise to the hope that all bodies may be recovered by daylight. The Bowder mine, with three others in this vicinity, has recently purchased by a stock syndicate of Tennessee and West Virginia capitalists.

WASHINGTON, Feb. 1.—Officials of the geological survey view with dismay the rapidity with which recent mine disasters have called for services of the few trained men at the command of the survey for aiding in mine rescue work.
All available men are in the field. It was pointed out by the officials tonight that if another disaster should occur before the men have finished their immediate tasks the survey could not send men to assist. Two trained helmet men of the survey from the permanent station at the University of Illinois are at Cherry, Illinois, two experts from the station at Pittsburgh are hurrying to Primero, Colorado. The only two others now at the survey's command have started for Drakesboro, Kentucky from Pittsburgh.

391 KILLED SINCE NOVEMBER.
CHICAGO, Feb. 1.—Two mine disasters today, one at Drakesboro, Ky., and another at Bartonville, Ill., and the mine explosion at Primero, Colorado, yesterday, roll up a total of 112 dead in mines since the big disaster at Cherry, Ill., on November 12, including the fatalities in the Cherry mine, disasters since last November have claimed 391 victims.

NEW YORK STATE GRANGE

WATERSON, N. Y., Feb. 1.—With over 300 delegates in attendance the New York State Grange assembled in convention here today for a four days' session. President J. G. Schurman of Cornell University is announced to deliver the principal address.
